

**YOU ARE INVITED TO THE
INAUGURAL RESEARCH ROADSHOW
OF THE SCHOOL OF PUBLIC HEALTH
AND INTERDISCIPLINARY STUDIES**

**TUESDAY, 05 JULY 2022,
09:00 AM
AUT NORTH SHORE CAMPUS
AF BUILDING FOYER**

Come and join us at the SPHIDS inaugural Research Roadshow, discover the exciting research that is taking place in the School and learn about the support that is available to all researchers whether new or established.

There will be video displays of the different research projects/areas and researchers/support staff will be there to discuss their projects or explain how they can assist in the various aspects of research preparation and conduct. This is a great opportunity to not only see the range of research being undertaken in the School, but also to network with your fellow colleagues and discuss potential future research collaborations. Morning tea will be available and the Roadshow will be followed by lunch.

Come along for the whole morning or just part of the morning as your schedule allows. Please also circulate this flyer to your postgraduate students and any Honours undergraduates who are considering postgraduate research in the School.

Research Institutes/Centres/Researchers/Academics/Research Support Staff at hand during the event.

Turn to next page for the Programme.

RSVP (for catering purposes):
sihs.administration@aut.ac.nz
on or before Friday, 17th of June 2022
